# WHAT IS ASHIATSU MASSAGE?

Ashiatsu (derived from the Chinese language AHSI (foot) and ATSU (pressure) is performed with the therapist standing over the client, holding onto parallel bars that are suspended from the ceiling.

It was originally practiced by Buddhist Monks in China, Thailand and Japan, Ashiatsu therapists work with their body weight and foot pressure to perform smooth, slow, gliding movements over the body.

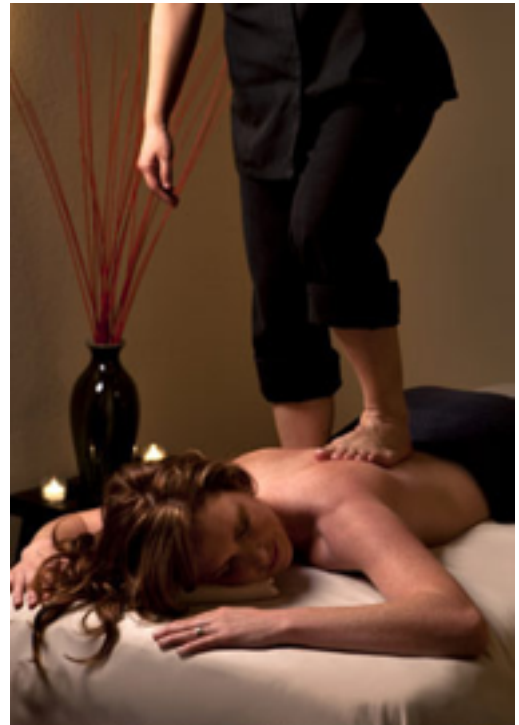

The deepest, most luxurious form of barefoot massage on the planet. This massage will help improve your posture and movement while relieving pain, improving bodily functions, and creating a state of well being.

Mat, one of our talented massage therapists, completed Ashiatsu Massage training, making him one of the only practitioners in the area that can perform this ancient form of massage.

## **Ashiatsu Massage can be used in a variety of applications such as:**

- Releasing tight, contracted muscle tissue
- Pain reduction
- Improving flexibility and range of motion
- Increasing circulation and releasing toxins
- Rehabilitating injured muscles
- Relieving stress
- Improving movement and posture
- Encouraging relaxation

Dermaplaning is a safe and simple procedure that provides a deep exfoliation of the skin and removes “peach fuzz” from the face. The treatment is done using a scalpel to softly shave off the dead layers of skin while unclogging dirt and debris that can get trapped in the pores and small hairs on the face. This treatment gets rid of the dull layer of skin, leaving you with a refined, smooth, and glowing complexion. More benefits include longer lasting makeup applications and better product absorption, allowing you to use less product over a longer period of time. Ward off the dry skin season with this treatment and reap the rewards of smooth, radiant skin!
